### TEST COMMENTS:

*This conventional site was planted in near-perfect soil conditions and had excellent emergence. Uniform stands were seen here in Virginia. Tall, healthy plants with very little foliar disease were noted across this location, as well as zero weed pressure. Rainfall in this area (18" from planting until harvest) wasn't as significant as we have seen in other areas of this region, likely keeping the plot safe from heavy disease pressure but limiting yield.*

### TEST COMMENTS:

*This conventional site was planted in near-perfect soil conditions and had excellent emergence. Uniform stands were seen here in Virginia. Tall, healthy plants with very little foliar disease were noted across this location, as well as zero weed pressure. Rainfall in this area (18" from planting until harvest) wasn't as significant as we have seen in other areas of this region, likely keeping the plot safe from heavy disease pressure but limiting yield.*

\* FIRST does not inspect products for refuge blend. N\* indicates the product was entered without a refuge component by the sponsoring seed company. Prior year entries may contain refuge blend.

## Footnotes and Abbreviations Descriptions

### Brand Footnotes

---

- CK Identifies a check product included in early- and full-season tests.
- GC Grower Comparison product included by FIRST when space permits.
- ^ Power Plus® brand seed is distributed by Burrus. Power Plus® is a registered trademark of Corteva Agriscience.

### Corn Technologies

---

- AA Agrisure® Above (CB,HX,LL,GT), formerly Agrisure® 3120
- AM Optimum® AcreMax®
- PCE PowerCore® Enlist®
- PCUE PowerCore® Ultra Enlist®
- QR Qrome®
- STX SmartStax®
- STXP SmartStax® Pro with RNAi Technology
- TRE Trecepta®
- V Viptera™ (Vip,CB,HX,LL,GT), formerly Agrisure Viptera® 3220
- VE Vorceed™ Enlist®
- VT2P VT Double PRO®
- VT4P VT4Pro™ with RNAi Technology

---

NOTE: The refuge component genetics may vary in a refuge blend seed product.
